### List of Tables

<b>Table No.</b>	<b>Caption</b>	<b>Page No.</b>
Table 1.1	Chemical data for glimepiride	20
Table 1.2	Chemical data for atorvastatin	20
Table 1.3	Chemical data for amlodipine	21
Table 3.1	The best chromatographic conditions for simultaneous measurement of amlodipine, atorvastatin and glimepiride.	37
Table 3.2	Parameters for dilluent-containing Amlodipine	38
Table 3.3	Parameters for dilluent-containing Glimepiride	38
Table 3.4	Parameters for dilluent-containing Atorvastatin	39
Table 3.5	System parameters for simultaneous measurement of diluent-containing amlodipine, atorvastatin and glimepiride	40
Table 3.6	System parameters for simultaneous measurement of plasma-containing amlodipine, atorvastatin and glimepiride	40
Table 3.7	Precision of the analytical method for a sample containing one concentration of the three drugs	42
Table 3.8	Precision of the analytical method for a plasma- containing one concentration of the three drugs	42
Table 3.9	Precision of the analytical method for a sample-containing one concentration of the three drugs with propylpapaben	43
