

## List of Tables

<b>Table No.</b>	<b>Title</b>	<b>Page</b>
1	Difference between various analytical methods of diacerein	30
2	HPLC system specifications and conditions	43
3	Absolute recovery (%) of rhein	54
4	Absolute recovery (%) of candesartan cilexetil internal standard	54
5	Intra-day and inter-day precision data	56
6	Subjects rhein concentration (ng/ml) prior to glucosamine administration	59
7	Subjects rhein concentration (ng/ml) post glucosamine administration	61
8	Subjects pharmacokinetic parameters prior to glucosamine administration	63
9	Subjects pharmacokinetic parameters post glucosamine administration	64
10	Significance of the difference between pre-glucosamine and post glucosamine administration in primary pharmacokinetic parameters	66
