

Pharmacology	23
<b>Study Design Objective</b>	32
<b>Chapter Two: Materials and methods</b>	<b>33</b>
<b>Subject Selection</b>	33
<b>Materials</b>	37
<b>Methods</b>	38
1. General Study Procedure	38
2. Discussion of Study Design	39
3. Preparation of Stock Solution	42
4. Preparation of Candesartan Cilexetil Internal Standard	42
5. Preparation of Rhein in Plasma	42
6. Preparation of Quality Control (QC) Samples	42
7. Preparation of Sample	43
<b>Method validation</b>	44
Recovery	45
Calibration / Standard Curve	46
Accuracy	48
Precision	48
Sensitivity	48
Selectivity & Matrix interferences	49
Dilution integrity	49
