

1.6.1	Precision	29
1.6.2	System precision	29
1.6.3	Method precision	29
1.6.4	Intermediate precision	30
1.6.5	Linearity and range	30
1.6.6	Accuracy	30
1.6.7	Stability of analytical solution	30
1.6.8	Filter compatibility	31
1.6.9	Robustness	31
1.6.10	Peak purity	31
1.6.11	Resolution	32
1.6.12	Number of theoretical plate	32
1.6.13	Symmetry	33
1.6.14	Relative standard deviation	33
1.7	Literature survey for determination of esomeprazole	34
1.8	Literature survey for determination of tadalafil	36
1.9	Aim of study	39
	Chapter two : Experimental	40
2	Experimental	41
2.1	Chemicals and reagents	41
2.2	Equipments	41
2.3	Selection of detection of wavelength	42
2.4	Buffer preparation	42
2.5	Mobile phase preparation	42
