

I would like to thank you again for your assistance and cooperation and look forward for your feedback and comments as soon as possible in order to finalize the thesis.

Best regards

Hala

Subject: Re: KSA test

Greetings, Hala,

I have processed the individual scores for the participants in your study and have attached the results in both SPSS and Excel format data files.

I have also attached a file called "Subscale Norms," which you can use to help interpret the range of individual scores you have among the participants in your study.

Please let me know if you have any further concerns.

Best wishes for a successful completion to your project.
