	concentration with time often days administration companies	
	concentration with time after drug administration, comparing candesartan with pomegranate juice and solitary drug use, each data	
	point represents the mean \pm SEM (n=3)	
14.	Rat plasma profile showing the changes in mean serum candesartan	100
	concentration with time after drug administration comparing combined	100
	and solitary drug use	
15.	Diagram with error bars comparing the mean (with its 95% confidence	102
	interval) serum candesartan drug concentration after half an hour of	102
l	drug administration between single and combined drug use	
16.	Diagram with error bars comparing the mean (with its 95% confidence	103
	interval) serum candesartan drug concentration after one hour of drug	
	administration between single and combined drug use	
17.	Diagram with error bars comparing the mean (with its 95% confidence	104
	interval) serum candesartan drug concentration after 2 hours of drug	
	administration between single and combined drug use	
18.	Diagram with error bars comparing the mean (with its 95% confidence	105
	interval) serum candesartan drug concentration after 3 hours of drug	
	administration between single and combined drug use	
19.	Diagram with error bars comparing the mean (with its 95% confidence	106
	interval) serum candesartan drug concentration after 4 hours of drug	
20	administration between single and combined drug use	105
20.	Diagram with error bars comparing the mean (with its 95% confidence	107
	interval) serum candesartan drug concentration after 6 hours of drug administration between single and combined drug use	
21.		108
21.	Diagram with error bars comparing the mean (with its 95% confidence interval) serum candesartan drug concentration after half an hour of	108
	drug administration between single and combined drug use	
22.	Diagram with error bars comparing the mean (with its 95% confidence	109
	interval) serum candesartan drug concentration after one hour of drug	107
	administration between single and combined drug use	
23.	Diagram with error bars comparing the mean (with its 95% confidence	110
	interval) serum candesartan drug concentration after 2 hours of drug	
	administration between single and combined drug use	
24.	Diagram with error bars comparing the mean (with its 95% confidence	111
	interval) serum candesartan drug concentration after 3 hours of drug	
	administration between single and combined drug use	
25.	Diagram with error bars comparing the mean (with its 95% confidence	112
