

## List of Tables

Table No.	Caption	Page No.
1.	Definitions and classification of blood pressure levels	3
2.	Interaction of angiotensin II receptor blockers with other drugs	8
3.	Physical and chemical properties of candesartan	17
4.	Liquorice identification	21
5.	Pomegranate identification	24
6.	Orange identification	26
7.	Spiked plasma samples	61
8.	QC Spiked plasma samples	62
9.	Summary table of Chromatographic Conditions and Mass Spectrometric Conditions	64
10.	The mean measurement error and accuracy for candesartan validation experiment on the first day at 4 selected target concentrations (day 1)	72
11.	The mean measurement error and accuracy for candesartan validation experiment on the first day at 4 selected target concentrations (day 2)	73
12.	The mean measurement error and accuracy for candesartan validation experiment on the first day at 4 selected target concentrations (day 3)	74
13.	Intra-day precision and accuracy data for LLOQ samples of candesartan based on the standard calibration curve of day one validation	75
14.	Intra-day precision and accuracy data for QC low samples of candesartan based on the standard calibration curve of day one validation	75
15.	Intra-day precision and accuracy data for QC mid samples of candesartan based on the standard calibration curve of day one validation	76
16.	Intra-day precision and accuracy data for QC high samples of candesartan based on the standard calibration curve of day one validation	76
17.	Intra-day precision and accuracy data for LLOQ samples of candesartan based on the standard calibration curve of day two validation	77
18.	Intra-day precision and accuracy data for QC low samples of	77
