

The Ras Al Khaimah – Gateway project

Entrance of the new planned city of Ras Al Khaimah to include a conference/exhibition centre and hotels. **Images:** Courtesy of Snohetta. **Location:** Ras Al Khaimah, 150 M east of Dubai, U.A.E. **Status:** To be completed in 2011.

1&2 | Pass if you dare: the stunning 200 M high tower coils up out of the sand like a striking cobra – charged with the duty of guarding the emirate.

3&4 | The ceramic-panelled design adds lush green and natural shaded spaces to the harsh desert landscape.

THE DESIGN TAKES FROM THE CITY AND GIVES BACK TO THE CITY
