

some on two legs and some on four legs.
God creates what He wills.
God indeed is capable of everything.

We have revealed [the Qur'an with] clear verses
as God guides whomever He wills
to the Straight Path.

24:43-46

August 20

Have you not seen how your Lord
has extended a given shadow.
But if He wills He could have made it still.
As the sun proceeds
it acts as a guide [for the shadow to change its length].
Then We shortened it gradually.

And He has made the night
for you like a garment
and made sleep for you to rest
and made for you the day to work and make a living.

And He sends the winds
with glad tidings
out of His mercy.

And We send down pure rain
to revive a dead city,
and We offer it as a drink
to those whom We created:
cattle and many people.
