

All these things are from God's bounty  
so that you may be grateful.

35:11-12

# October 5

Have you not seen that God sends down rain to produce fruits of diverse colours, and that God also formed mountains of rock that are white, red-streaked, and of varying colours, as well as black? Similarly, God made humans, cattle and animals of differing colours.

Among all humans, only those with real knowledge would revere God.  
Truly, God is the All-Mighty, the Most Forgiving.

Remember also that those who recite from God's Book [the Qur'an], perform daily prayers, and give money to charity, both secretly and in public, from what We have provided are making an excellent investment that will never be lost.
