

Welcome to Microsoft Windows

Thank you for purchasing Microsoft Windows XP.

Let's spend a few minutes setting up your computer.

Help protect your PC

With Automatic Updates, Windows can routinely check for the latest important updates for your computer and install them automatically. These updates can include security updates, critical updates, and service packs.

• **Help protect my PC by turning on Automatic Updates now**
(recommended)

• **Not right now**

If you haven't turned on Automatic Updates, your computer is more vulnerable to viruses and other security threats.

No information is collected that can be used to identify you or contact you.
Please read the [Windows Update privacy statement](#).
