

Final Steps Tree

The Final Application

Expressions

You can build expressions by mixing data, variables & operators (arithmetic & logic)

Examples:

- "Hello " + cName
- (3 + num1) * (5 + num2)
- (.T. .AND. .F.) .OR. (.F. .OR. .T.)

.T.	Logical True
.F.	Logical False
.AND.	Logical AND
.NOT.	Logical NOT
.OR.	Logical OR
